EXECUTIVE SUMMARY WEST VIRGINIA DEPARTMENT OF EDUCATION

Policy 2315: Comprehensive School Counseling Programs (CSCP)

Background: Policy 2315 defines the core components of the Comprehensive School Counseling Programs (CSCP) in West Virginia schools, including a description of the four delivery systems and the West Virginia Student Success Standards (WVSSS) that are core to a three-tiered system of student supports, describes county board and WVDE responsibilities, provides school counselor credentialing requirements, and defines core terms to ensure a common language between educational stakeholders and clear description related to the delivery and implementation of the CSCP. Policy 2315 has always housed foundational standards, however, in an effort to consolidate similar standards and show a connection to student learning, the WVSSS have now been included in Policy 2520.19, West Virginia College- and Career-Readiness Dispositions and Standards for Student Success. Policy 2315 will incorporate these standards by reference as the foundational student standards for all West Virginia CSCPs.

Proposals: Policy 2315 revisions include removing the West Virginia Student Success Standards from Policy 2315 because they have been incorporated into Policy 2520.19. Policy 2520.19 was revised to embed the Student Success Standards from Policy 2315 in order to show the connection for student learning. Policy 2315 will reference these standards as core CSCP standards and as an integral part of the comprehensive school counseling program.

Impact: By merging the three sets of standards into one policy, the expectation is that staff can more easily understand how all these standards fit together and connect to student learning, resulting in more consistent delivery of the standards to students and contributing to the holistic development and success of all students.

- 5.1.a.1. During the 8th grade <u>year</u>, each student's PEP is developed to identify course selections for the 9th and 10th grade based on each student's identified career aspirations. Prior to development of the PEP, the school shall provide ongoing opportunities during the school day for career exploration and self-discovery involving student needs assessments, career and interest inventories, learning style inventories, self-reflections, and career inquiry. When finalizing the PEP, the counselor and/or student advisor will meet with the student and parents/guardians to secure signatures documenting involvement. The student and parents/guardians <u>shall be are</u> provided a copy of the PEP.

- 5.1.b. Integrated Delivery of WV <u>Standards for Student Success Standards</u> is coordinated by the <u>school leadership team</u>, the school counselor, and teachers. The WVSSS (see incorporated documents <u>Policy 2520.19</u>), describe the attitudes, knowledge, skills, and behaviors all students shall develop in relation to academic and learning development, career development and life planning, personal and social development, and global citizenship. Responsive services offer preventive activities and programs to address the identified needs of students in each school, as well as evidence-based interventions to address targeted student needs. The services include working with at-risk students to provide the help and support needed to ensure grade level success. Usually short-term in nature, responsive services include individual and small group counseling, academic and behavior intervention plans, crisis prevention and response, consultation with parents/guardians and other school staff, and referrals to school and community resources. In cases where students require ongoing support or therapy, the counselor makes appropriate referrals and works with families to secure appropriate resources within the school or community. Schools identify who will coordinate and follow-up on each referral. The school counselor collaborates with stakeholders to create a school-wide, prevention-based approach to individual and school crises and has a crisis plan in place to address the mental health component of common school-wide crises. The school crisis team educates other stakeholders to assist with school-wide crisis preparedness, prevention, intervention, and response, outlining responsibilities and best practices in the school crisis planning and response.
- 5.1.d. High quality education programs provide well-designed student support systems, ensuring that the learning environment is safe and supportive and that the academic, social and emotional, and career development needs of students are identified and addressed. The school counselor collaborates with stakeholders to ensure school-wide coordination of the CSCP and other student support programs. - 10.12. Individual Counseling Individual counseling refers to a helping process implemented by a professional with a certification in counseling who uses a variety of evidence-based techniques and strategies to help individual students explore academic, career, and personal/social issues impeding healthy development or academic progress. Individual counseling aims to assist students with addressing barriers and improving school success, home, and community living. Individual counseling in the school setting is short term in nature. Students requiring more frequent or intensive counseling should be referred to appropriate mental health professionals.
- 10.13. Informed Consent Informed consent involves seeking written permission from parents of minors for services typically not provided by certified school staff and is required when students receive services from non-school employees. Students under the age of consent may assent to school counseling services without parent permission because the comprehensive school counseling program is a required school component as per WVBE of Policy 2510. Therefore, school counselors are not required to seek parental permission for students to benefit from any component of the school counseling program as defined in this policy. As best practice, counselors may inform parents if students will be missing significant, ongoing instructional time for such activities as group counseling, educational programs outside the school, or peer helping training programs.
- 10.14. *Postsecondary* Postsecondary includes options available to students after high school (e.g., two and four-year colleges, certificate programs, employment, on-the-job training, apprenticeship programs, and the military).
- 10.15. Stakeholders Any person who assists with or benefits from the school counseling program and may include students, school staff and leadership, parents, community members, higher education, and workforce leaders.
 - 10.16. Certified School Counselor West Virginia school counselors hold a master's degree in school

counseling from an accredited university and certification in school counseling from the WVDE as per Policy 5202.

10.17. West Virginia School Counselor Performance Standards (hereinafter WVSCPS) — The West Virginia School Counselor Performance Standards—WVSCPS describe the essential skills, knowledge, dispositions, and behaviors all West Virginia school counselors must possess. These performance standards describe evidence-based best practices and guide school counselors to improve program effectiveness, student success, and career readiness. The standards include performance level rubrics that guide school counselors in becoming accomplished in all the major facets of effective school counseling practice.

West Virginia Student Success Standards

Explanation of Terms

Standards are broad statements that define the knowledge, skills and dispositions that all students must demonstrate in a content area in each programmatic level in grades PK 12.

Competencies define the expectations students must demonstrate to be college and career ready.

Learning Outcomes describe specific groups of objectives that connect to achieve a specific outcome.

Objectives are incremental steps toward accomplishment of content standards. Objectives are listed by grade level and are organized around learning outcomes and standards. Objectives build across grade levels as students advance developmentally and in their knowledge and skills.

Numbering of Objectives

The numbering of objectives is composed of five parts, each part separated by a period:

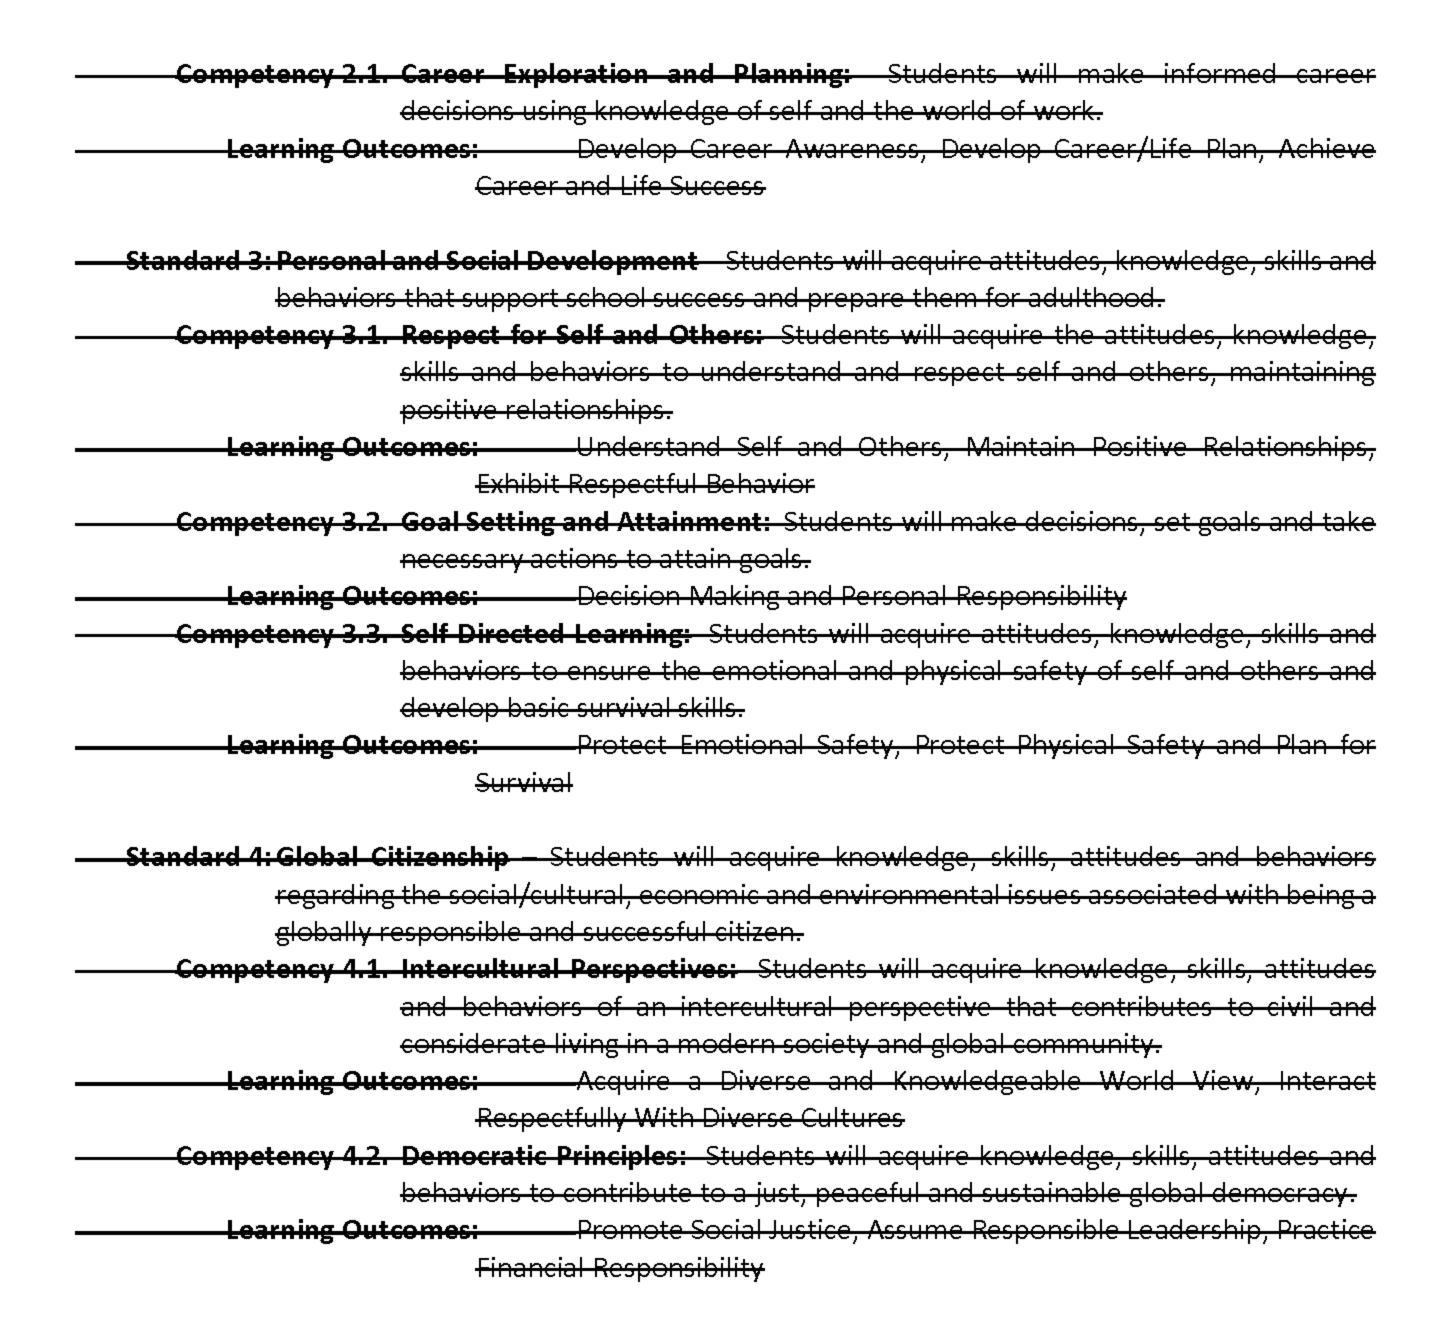

- the programmatic level (ELR Early Learning Readiness; ELP Early Learning Primary; ELI Early Learning Intermediate; MLP Middle Level Programming; ALP Adolescent Level Programming)
- the content area code (SS Student Success)
- the standard,
- the competency, and
- the learning outcome.

West Virginia Student Success Standards for Early Learning Programming (Pre-K-Fifth Grade)

Student success standards for Early Learning Programming (Pre-K-Fifth Grade) focus on students' social and emotional development to lay the foundation for all learning. Progressive physical, cognitive and academic development depends on a student's ability to intentionally engage in learning activities through a variety of modalities. Essential to this process is the student's ability to self-regulate and persist in activities when challenged with new experiences. Active learning is achieved through a student's ability to solve problems within the context of positive relationships, communicate their needs effectively and evaluate themselves. Effective teaching strategies help students develop strong self-regulation, which in turn prepares students to succeed in school.
